

Society for Peoples Education And Economic Change
SPEECH

Annual Report
FY 2021-22

INTRODUCTION

SPEECH is a secular, non-profit development organization established in 1987, primarily to strengthen Human concerns in civil Society at large, to address issues that hinder growth process. Strengthening grassroots democracy and Good Governance by facilitating participation and promoting self- sustainable development of the vulnerable sections from rural Tamilnadu are the prime visions of SPEECH.

As development organization, SPEECH commits itself to releasing human potentials of the weaker sections through conduct of wide range of activities by the communities themselves. Our approach is highly development issue based as against the set biases that emerge out of caste, religion, linguistic or community identities. The approach also emphasizes the fact that, liberation of human potentials cannot be confined to a 'bottom – up' one-way process. It recognizes the need to imitate a two way process of transformation at the top to accommodate the need base of the bottom line and the bottom to contribute their best to strengthen the democratic principles.

Organization Objective

Enable the underprivileged to release their human potentials and thereby achieve sustainable use of locally managed resource base and evolve a 'user friendly' service delivery system.

To partner the developmental efforts of the weaker and vulnerable sections towards holistic improvement of their very being in society.

Vision

Strengthen human concern in civil society at large and to address issues that hinder growth process of the vulnerable, besides strengthening grass root democracy towards promoting sustainable development

Mission

To build an internal system for child protection, gender and social inclusion that is coordinated, integrated and holistic.

Financial Partners

Project - Retrieving Hope for Child Rights

Towards dismantling the barriers to Education

- E-Learning kit (Laptop, Speaker and Wifi dongle) Distributed to 34 CLC centres. Also provide training for CLC facilitators on Computer Operation and Internet Skills

Sanitation First

School sanitation programmes have been identified as one way which results in health benefits as well as improved educational outcomes as they help to fulfil children's rights to better health, education and participation.

SPEECH conduct the survey which school strength is more than 75 students in Virudhunagar District for Sanitation First Project. Collect basic information of schools on the current status of water availability, toilet usage and the sanitation facilities.

Goal

- To find the exact situation of water and sanitation facilities in govt schools in Thiruchuli, kariapatti, and Narikudi blocks of virudhunagar dist
- To submit the policy changes and other actions to rectify the health/hygiene and sanitation issues facing by children Objectives of the Baseline Survey

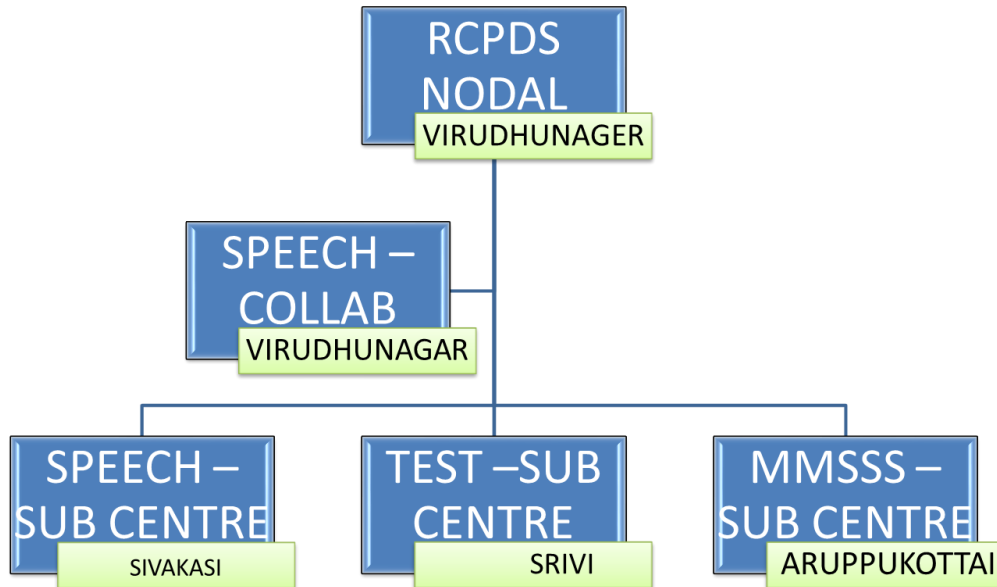

Finds of Survey

- School teachers should internalize the toilet uses
- Prime contact for students to address the issues in school
- Appoint a district level officer for the water and sanitation monitoring and follow up
- Panchayat presidents should take over the responsibilities of local school toilet maintenance
- Panchayat cleaning staff should visit the school at least once in a day
- School management committee or parent teacher association have push one agenda in their regular
- District level officials should visit the toilets and drinking water facilities
- Local body elected members and constituency elected members should give more preference for school toilet and other sanitation facilities „h Local Panchayat bodies have created new systems to ensure adequate water supply to all government schools and adequate water supply to students.
- Govt. will announce all school campus are secured area. If the Govt. takes decision then stranger will not entered school campus during holidays. Drinking , toilet usages , toilet door and toilet damages
- Harassment by local citizens during holidays is high in government school campuses, breaking school doors or jumping out of school compound during holidays, vandalizing government property, throwing songs about breaking toilet cups, etc.
- There is a chance that he and they will engage in similar practices in the future which will create a fear among them and an unnecessary embarrassment to them.
- So if the government declares school campuses as protected areas, such nuisances are likely to be reduced. Such transgressions should be immediately punished in the schools where the children attend in their own towns.
- Becoming a safe space inside the school will help develop a good healthy environment among the children where the property inside the school is protected
